

**Please check your number carefully !!!**

If your grades are NOT listed below it's because I thought you might not want them posted (for example, you did not take the final or you declined to your grades posted in the past)

General Formula for computing your %:

$$(Mid1+Mid2)/100*42+(Final)/100*36+(highest\ 6\ Activities)/120*10+(highest\ 6\ hwk\ grades)/60*10+(participation)/7*2$$

Note: Your **participation** score is the sum of your 6 highest participation grades, up to a max of 7 points.

If you want to see your exam or have a question about your grade, come to my office hrs.

Otherwise, good luck with your other classes and enjoy the summer!
